

Just Teaching Tool #8

Life-giving Solutions for Each Student

If you have completed all seven tools from each chapter, you should be well on your way to solutions for each student. I hope they feel less exhausting to you because these solutions are essential to our work and become life-giving when we find joy in the journey we walk with students. This score is not a ranking but is meant to be a way to identify where you and I can continue to grow!

For this tool, you need one summary statement from several tools. This can be a word or phrase and no more than a sentence. Then rate each tool based on your role and unit of analysis (e.g., student, class, school, or district). You can also complete this online.

Thanks for being just teachers and administrators. We are so grateful for you!
